The power to protect your world.SM

The Power to Protect Your WorldSM

We live in a world where people don't always make the right choice. Health and safety professionals have a challenging job convincing people to wear protective equipment for their own safety. You must combine compliance to standards and regulations and employee safety, comfort, and even style. Everyone wants to look good, but they don't always want to wear protective equipment. We know this and it is why we continue to listen, test and add innovations to improve our products so people wear them longer.

We provide solutions for work situations requiring basic Personal Protective Equipment (PPE) through to environments that call for the most sophisticated and comprehensive protection. Whether the customer is a single tradesperson, medium sized business or an organisation employing thousands of workers, 3M has a workplace safety solution to meet your needs.

When job requirements call for special problem solving expertise, you can rely on 3M to use its diverse industry knowledge and history of innovation to give you the confidence and power to protect your world.

The 3M range of solutions for worker safety includes:

- Respiratory Protection
- Hearing Protection
- Communications
- Eye, Head & Face Protection
- Welding Protection
- Spill Management
- Worker Visibility
- Detection & Monitoring
- Body Protection

3M Safety brands you can trust:

Training and Support

3M's team of Specialist Representatives are available nationally, to provide support and training that meet the needs of our customers.

Furthermore, our qualified and highly experienced team are able to assist customers by:

- Conducting initial and ongoing assessments of the workplace.
- Recommending appropriate respiratory, hearing, eye protection, communication and spill management solutions required to maintain a safe work environment
- Providing technical advice about the correct use and maintenance of the solution that has been selected
- Facilitate on-site fit testing for both respiratory and hearing protection solutions, as required

No matter how effective a piece of Personal Protective Equipment (PPE) is, it will offer little or no protection if it is not fitted and/or worn correctly. Proper inspection, cleaning and storage is vital for safety equipment that protects a worker's health and well-being.

That is why we offer training programs that explain the correct way to fit, inspect, clean and store the PPE designed and manufactured by 3M.

Technical Assistance

3M TechAssist is the ideal point of contact for your questions, especially when you require a prompt answer. Supported by trained staff, TechAssist is an immediate link to the worldwide resources of 3M.

Customers can contact TechAssist to answer questions on product information, technical advice, guidance with product selection, Australia/New Zealand Standards and other important information they need to know on a day-to-day basis.

See back cover for Technical Assistance contact details.

ANZ Distributor network

3M distributes our wide range of workplace safety products through a network of distributors, resellers and retailers throughout Australia and New Zealand.

Detection

Protection

Validation

When it comes to protecting workers' hearing, there is no one-size-fits-all solution.

Understanding the challenge requires accurate sound detection. Delivering the right solution demands the right protection for the job. Verifying solutions calls for a validation system.

We deliver a complete set of tools needed to detect, protect and validate. It's 3M hearing protection solutions made innovatively easy.

PELTOR™

Smart Solutions for Easy Communications

Noise can create unique challenges for your workforce, and 3M Peltor offers innovative solutions that make it easy for your team to communicate in high noise environments.

Our dedication to developing communication solutions began over 40 years ago. Today we offer an extensive range of personal safety headsets and 2-way radio accessories for use in manufacturing, construction, shooting, racing, law enforcement, and military environments.

From our tactical hearing protectors to our self-contained 2-way radio headsets, 3M™ Peltor™ Products deliver the quality and performance needed for clear communications in high noise environments. Our products incorporate the latest technological advances in electronics, materials and designs.

3M Peltor: Innovative products. Clear communications. Professional comfort.

Functions

Short description of functions and the meaning of symbols.

Intrinsically - Safe

IS approved products developed for users who spend time in explosive atmospheres, such as the Oil and Gas industry.

Built in communication radio

Hearing protectors with built in communication radio.

Level Dependent Function

Each cup has a microphone that captures all sounds. The electronics inside analyse the information and process the sound before reproducing it to the ear. It provides effective protection against impulse noises like gunshots. At the same time, speech and weak signals can be amplified up to 10 times in comparison to conventional hearing protection.

Two way communication

To communicate at a distance via communication radio, mobile or DECT-phone.

Bluetooth™

Hearing protectors with built in Bluetooth™.

Built in FM/AM Radio Receiver

Hearing protectors with built in FM/AM-radio receiver.

Listen only function

To be able to listen to radio traffic, for example via a communication radio, mobile or DECT-phone.

MP3

Connects to MP3 player and other audio devices

Attenuation ratings

Short description of attenuation ratings and the meaning of symbols. (SLC₈₀ Sound Level Conversion)

85 < 90dB

Corresponds to AS/NZS 1269.3:2005 Class 1
SLC₈₀ 10 to 13dB

90 < 95dB

Corresponds to AS/NZS 1269.3:2005 Class 2
SLC₈₀ 14 to 17dB

95 < 100dB

Corresponds to AS/NZS 1269.3:2005 Class 3
SLC₈₀ 18 to 21dB

100 < 105dB

Corresponds to AS/NZS 1269.3:2005 Class 4
SLC₈₀ 22 to 25dB

105 < 110dB

*Corresponds to AS/NZS 1269.3:2005 Class 5
SLC₈₀ 26dB or greater

Warning:

At exposures above 110dB you will need specialist advice on the selection of hearing protectors.

3M™ Peltor™ Communication Solutions

Part Number Reference Guide

The following schedule is intended to provide a guide to the interpretation of part number sequence/s applied to the various Peltor Communication and hearing protection solutions.

- + Every number or letter represents a feature or characteristic of the Headset or Hearing Protector
- + There will be a cup size in the Code
- + There will always be a band configuration in the Code
- + Codes always start with the microphone
- + There could be part number sequences that end with a suffix which indicate a variant

Mic	* Type of Mic	Function	Headset Platform
MT1	Electret	Ambient noise Mic	Tactical XP
MT7	Dynamic	Boom Mic	Selective platforms
MT9	Dynamic	Throat Mic	Selective platforms
MT15	Dynamic	Ambient noise Mic	Protac/Comtac/Litecom
MT16	Dynamic	Ambient noise Mic	Sporttac
MT17	Dynamic	Ambient noise Mic	Comtac XP
MT32	Dynamic	Boom Mic	Non-attenuating
MT51	Electret	Boom Mic	Aviation
MT52	Dynamic	Boom Mic	Aviation
MT53	Electret	Boom Mic	All platforms
MT72	Dynamic	Boom Mic	Aviation (mainly)

* Electret versus Dynamic Microphone?

Dynamic Microphones preferred in areas where relatively high ambient noise may be prevalent

Letter	Band Style
A	Head band
B	Neck band
F	Foldable Head band
FB	Foldable Head band
P3x	Helmet Attach (x = E,G,K, etc dependent on type of Helmet)

Comms Platform	Description	Basic Function
Communications Headsets - General. Ground Mechanic	Non-,Medium, High Attenuation	2-way communication through RF or Bluetooth™ medium
Aviation	High attenuation, Fixed wing & Helicopter	Radio Communications and PA
Listen Only	Medium and High Attenuation	One way communication
Litecom	Level dependent with built-in 2-way radio Hearing Protector	2-way communication through Built-in radio or external input signal
Tactical	Level dependent Hearing Protector	Impulse noise protection with Radio Communications capability
Workstyle	Hearing protection with AM/FM radio	Impulse noise protection with AM/FM radio and external port for personal music players or mobile phones.

Selection Tool

Headset Connectivity

Direct Lead

Connect your headset direct to you two-way radio

Flex Lead

Connect your headset via a flex cable to you two-way radio. Change of radio means a change of flex cable.

J11 & PTT

Connect your headset via a push-to-talk adapter to your two-way radio

Lite-Com

In-built two way radio. Can also program existing two-way radio to headsets

WS

Features Bluetooth™ technology to connect to Bluetooth radios/phones. Can also use Peltor WS adapter for non-bluetooth devices.

Headset Solutions

With a carefully developed microphone and speaker system, 3M's Peltor Headsets offer excellent communication possibilities for very high noise environments. The headset cups provide excellent attenuation and comfort for long-term wearing. A wide range of models and features offer many possibilities for different applications.

Peltor™ Non Attenuation Headset

This single or dual-sided non-noise attenuating lightweight 2-way communication headset is ideal for users working in non-hazardous noise conditions such as control bases or offices.

- Uses 3M™ Peltor™ technology in earcup design and electronics
- Offers clear, crisp 2-way communication
- Offers flexibility and convenience with lightweight headset design
- Works in conjunction with 2-way radios
- High comfort due to a broad head band of sprung stainless steel, which ensures even pressure
- Continuous height adjustment
- Load-relieving cord clip
- Equipped with Dynamic boom microphone
- Standard version with J11 connector (Nexus TP-120)

Peltor™ High Attenuation Standard Headset

With its carefully designed microphone/speaker system and excellent attenuation, the 3M™ Peltor™ Headset range offers unique acoustic performance providing outstanding communication in very high noise environments. Peltor's proven and durable designs ensure high comfort levels, allowing long term use under very tough conditions.

- High-attenuating shells with optimised acoustic design and excellent space for the ears for the best possible sound quality and comfort.
- Dynamic speech boom microphone with effective noise compensation for clear and reliable communication
- Quick positioning boom microphone for easy handling
- Soft, wide, foam and fluid-filled ear cushions.
- Individually sprung stainless steel head band provides an even and consistent distribution of pressure around the ears
- Beam-mounted earphones that provide minimal resonance and distortion, offering excellent sound reproduction even in high-noise environments
- Standard J11 connection (Nexus TP-120)
- Numerous configurations. Overhead, neckband and helmet-attached versions to meet most users' requirements.

Peltor™ High Attenuation Flex Lead Headset

The 3M™ Peltor™ Flex Headset range offers unique acoustic performance providing outstanding communication in very high noise environments. A standard chassis jack for connecting Flex cords completes the headset.

- High-attenuating shells with optimised acoustic design and excellent space for the ears for the best possible sound quality and comfort.
- Electret speech boom microphone with effective noise compensation for clear and reliable communication
- Quick positioning boom microphone for easy handling
- Soft, wide, foam and fluid-filled ear cushions.
- Individually sprung stainless steel head band provides an even and consistent distribution of pressure around the ears
- Beam-mounted earphones that provide minimal resonance and distortion, offering excellent sound reproduction even in high-noise environments
- PTT button on the cup
- Numerous configurations. Overhead, neckband and helmet-attached versions to meet most users' requirements.

Peltor™ WS™ XP Bluetooth™ High Attenuation Headset

This Peltor wireless solution uses the latest Bluetooth technology to make communication in noisy environments easier and more effective. You can always be available – fast, easily and wirelessly. Gone are the problems of the snagging cord. You can use your telephone or communication radio even when they're not in sight. Peltor Wireless Solutions™ isn't just about headsets, it also includes adaptors for communication headsets that don't have built-in Bluetooth®.

- Wireless connection to phones or communication radios using Bluetooth™ technology
- The headset and telephone can be up to 10 metres apart and out of visible range without losing contact
- Volume and answer button on the shell
- High-attenuating shells with optimised acoustic design, spacial ear cups, offer great sound quality and comfort
- Electret speech microphone with effective noise compensation for clear and reliable communication
- Quick Positioning boom microphone for easy handling
- Soft, wide, foam and fluid-filled ear cushions. Individually sprung stainless steel head band provides an even and consistent distribution of pressure around the ears
- Beam-mounted earphones that provide minimal resonance and distortion, offers excellent sound reproduction even in high-noise environments

Peltor™ Intrinsically Safe High Attenuation Headset

3M™ Peltor™ line of IS products are designed for extreme environments. Developed in close collaboration with demanding users, these products have undergone rigorous testing in harsh environments. The results prove that we can meet the demands and make communication easier and more reliable despite external factors.

- Intrinsically safe headsets according to IECEx class Ex ib IIC T4
- High-attenuating shells with optimised acoustic design, spacial ear cups, offer great sound quality and comfort
- Dynamic speech microphone with effective noise compensation for clear and reliable communication
- Quick positioning boom microphone for easy handling
- Soft, wide, foam and fluid-filled ear cushions. Individually sprung stainless steel head band provides an even and consistent distribution of pressure around the ears
- Beam-mounted earphones that provide minimal resonance and distortion for excellent sound reproduction even in very high-noise environments

Aviation Solutions

Whether the ground is 32,000 feet below you or you push an A380 with a weight of 560 tonnes, you can't afford to have anything go wrong.

Perfect communication, convenient design, low weight and maximum comfort are essential requirements of a headset in a noisy aviation environment, in the air and on the ground.

Peltor™ WS™ XP & WS™ ProTac™ XP Ground Mechanic Headsets

The Peltor Ground Mechanic WS XP Headset and ProTac XP Headset are hearing protectors that feature Bluetooth technology. The Bluetooth connection between headset and adapter ensures an efficient and safe push back. The headset provides effective noise attenuation when sound level is high.

- Wireless connection to WS Ground Mechanic adapter using Bluetooth™ technology
- DSP (Digital Signal Processor)
- Supports Bluetooth A2DP profile for streaming high quality stereo sound
- VOX (Voice Operated Transmit)
- Cockpit notification and connection control
- The headset and adapter can be up to 10 metres apart and out of visible range without losing contact
- Volume and PTT (push to talk) buttons are on the shell
- High-attenuating shells with optimised acoustic design, spacial ear cups offer great sound quality and comfort
- Dynamic speech microphone with effective noise compensation for clear and reliable communication
- Socket for an External PTT
- Wireless connection to WS5 Ground Mechanic adapter using Bluetooth™ technology "FL6007-WS5 GB".
- WS ProTac XP includes Level dependent function in stereo that lets you hear ambient sound: conversation, machine sounds and warning signals

Peltor™ Fixed Wing Aviation Headsets

The Aviation 8003 headset for fixed winged aircraft has an ambient-noise compensated dynamic differential microphone, specially designed for aviation intercom systems. The Aviation 8006 headset for fixed winged aircraft has an ambient-noise compensated electret differential microphone, specially designed for aviation intercom systems

Aviation 8003

- The microphone amplifier can be adjusted for output signals in the range of 300-600 mV
- The frequency range is adjusted for good speech recognition
- The straight polyurethane cable with moulded connectors has a stereo/mono switch in the branching box
- The earphones have a 1/4" stereo connector and the microphone has a PJ068 connector.

Aviation 8006

- The microphone amplifier can be adjusted for output signals in the range of 300-600 mV
- The frequency range is adjusted for good speech recognition
- The earphones have a broad frequency range for good sound reproduction

Peltor™ Helicopter 8103 & 8106 Headsets

The Aviation 8103 helicopter headset has an ambient-noise compensated dynamic differential microphone, specially designed for aviation intercom systems. The Aviation 8106 helicopter headset has an ambient-noise compensated electret differential microphone.

Aviation 8103

- The microphone amplifier is designed for intercom systems with 5 Ohm impedance
- The frequency range is adjusted for good speech recognition
- The earphones have a limited frequency range, to give the best possible speech recognition in the ambient noise of a helicopter
- The spiral polyurethane cable has a moulded NATO-standard connector equivalent to the Nexus TP-120

Aviation 8106

- The earphones have a limited frequency range, to ensure the best possible speech recognition in the ambient noise of a helicopter
- Peltor™ two-point suspension of the shells on a broad head band ensures total comfort and consistent noise attenuation
- The spiral polyurethane cable has a moulded NATO-standard connector equivalent to the Nexus TP-120

Peltor™ Intrinsically Safe Listen Only Headset

3M™ Peltor™ Blue-Line™ is a series of EX products designed for extreme environments. Developed in close collaboration with demanding users, these products have undergone rigorous testing in harsh environments

- IECEx-approved headsets according to IECEx class ib IIC T4
- High-attenuating shells with optimised acoustic design, spacial ear cups offer great sound quality and comfort
- Soft, wide, foam and fluid-filled ear cushions. Individually sprung stainless steel head band provides an even and consistent distribution of pressure around the ears
- Beam-mounted earphones that provide minimal resonance and distortion for excellent sound reproduction even in very high-noise environments

Light Weight Solutions

3M™ Peltor™ Light Weight solutions are designed for users who must have clear reception of incoming transmissions.

Compared to regular earmuffs, these products offer a more neat and discreet solution. We have developed a flexible portfolio to be used in many applications, where this solution is valuable and needed.

Peltor™ ORA TAC In-Ear Tactical Communications

The 3M™ Peltor™ ORA TAC is a dual-sided in-ear tactical communications headset. The ORA TAC headset is lightweight, compact and provides hearing protection with comfortable, ambient listening. It is compatible with other PPE such as full face respirators.

- Delivers omni-directional reception with lightweight, compact headset
- No earcups reduce weight & heat
- Quick radio connect/disconnect
- Moisture- resistant PTT
- Fits with most respirators, eye wear, face masks, helmets and hard hats
- Protects users from impulse noises and in high-noise environments
- Offers direct connection to a variety of 2-way communications radios
- Provides clear communication with tactical features for more natural sound

3M™ Peltor™ TEP-100

In-Ear Electronic Level Dependent Hearing Protector

The 3M™ PELTOR™ Tactical Earplug helps protect your hearing, and can help improve situational awareness and communications in challenging environments. Integrated with state-of-the-art level dependent technology, the TEP-100 helps provide hearing protection in noise and situational awareness in quiet environments.

- Charging contacts recharge the unit while in the case. Li-ion battery provides up to 16 hours of continuous operation.
- Intuitive one-button operation turns unit on, off, and selects volume settings (2).
- Replaceable communications eartip helps provide hearing protection in noisy environments. Multiple sizes and types designed to fit most ear canals.
- Water resistant innovative design helps protect microphone against water ingress.
- Corner radius designed to help soften contact zone and increase comfort.
- Unique microphone port to help minimize wind noise
- Attachment point for optional earplug cord. (included)

Lite-Com Solutions

The 3M™ Peltor™ Lite-Com series has a built-in two-way radio that opens up a new world with endless communication possibilities. Don't let noisy surroundings prevent you from working effectively. The Peltor Lite-Com Series helps you stay connected while at all times protecting your hearing.

It doesn't matter whether you work in a small team or a large group. When everyone is linked by two-way radio you can do the right tasks at the right time. You can choose already programmed frequencies or program your own frequencies.

Peltor™ Lite-Com™ Plus Headsets

The 3M™ Peltor™ Lite-Com™ Plus boasts the same great features as the standard Lite-Com (hands-free communication up to 1 km), with an improved user interface and digital speech recognition. The Lite-Com Plus allows users to be better connected with their immediate environment, hearing ambient sounds such as conversation and warning signals while still maintaining clear two-way communication over long distances.

- Designed for people who work in teams or groups, where communication is essential
- 69 two way radio channels on the LPD 433 MHz band
- 121 sub channels
- Built-in active-sound function lets you hear ambient sounds; warning signals, machine sounds, conversation, etc. Sudden impulse noise at harmful levels are immediately attenuated
- Electronic voice guided menu system
- Separate PTT (push to talk) button for the auxiliary input, where a mobile phone, radio, or other audio source can be connected
- Squelch, VOX and audio input adjustment lets you configure the earmuffs to your personal choice. These settings can then be saved in the pre set buttons
- Unused, Lite-Com Plus switches off automatically to conserve batteries
- Rechargeable lithium-ion battery with 20 hours operating time
- Battery status indication

Peltor™ Intrinsically Safe Lite-Com™ Pro II Headsets

Peltor Lite-Com Pro II is a communication headset with high attenuation hearing protection and a short range built-in communication radio. The communication radio is designed for either stand alone or integration into industrial or other professional communication systems. It's an intrinsically safe UHF radio headset that's frequency programmable, making it ideal for manufacturing, oil and gas environments, as well as assembly line work.

- Has a built-in active-volume function that lets you hear ambient sound: conversation, machine sounds and warning signals
- Built-in VOX for handsfree operation
- Sudden impulse noises at harmful levels are immediately attenuated
- An electronic voice tells you what settings you are adjusting, so you do not have to take off the headset to check
- IECEx class

Tactical Solutions

3M™ Peltor™ Tactical headsets consist of level dependent solutions that are invaluable tools for people who are subjected to impulse noises. The active-volume function lets you hear ambient noises, such as conversations, machine sounds, warning signals etc. Soft sounds are amplified, so you hear them even better than you would without hearing protectors.

These products are well-suited and often used by the military, hunters and shooters as well as industrial users.

Peltor™ SportTac™ Headset

SportTac™ earmuffs are developed specifically for hunting and sports shooting. The smooth, level dependent function eliminates abrupt sound cut-off. They protect against harmful impulse noises while letting in, and even amplifying, ambient sounds. Interchangeable shells make it easy to change colour.

- Developed specifically for hunting and sport shooting
- Smooth level dependent function, which eliminates abrupt sound cut-off
- Interchangeable shells makes it easy to change colour
- Equipped with automatic shut-off function
- Collapsible design for easy storage
- Input jack, allows you to connect to selected 2-way radios or other electronic audio devices
- Angled speakers for better direction perception
- Electronics on the outside protected from sweat
- Water resistant exterior
- Amplifies ambient sounds up to 15dB
- Battery life 600 hr (AAA Batteries 1.5V)
- Slim compact shells design for optimal freedom of movement

Peltor™ ProTac™ II & Tactical Pro™ Headsets

With the ProTac II, you are not shut off from the environment, which can be both dangerous and inconvenient. The level dependent function lets you hear ambient sound: conversation, machine sounds and warning signals. The control buttons are easily accessible and logically positioned, making it easy to adjust ambient noise.

- Improves communication and safety
- Level dependent function in stereo that lets you hear ambient sound: conversation, machine sounds and warning signals
- Plenty of space for the ear
- Last setting is stored when switched off
- Headset option with guide-mounted microphone
- Low battery warning signal
- Automatic shut-off after two hours if no function is used
- Battery life is approximately 1000 hours (AA Batteries). Warning signal when power is low, before shut-off
- Audio input jack for external radio
- TACTICAL PRO comes with Dynamic boom mic & J11 input jack

Peltor™ WS ProTac™ XP Headset

The Peltor™ WS™ ProTac XP is an active-hearing hearing protector that features Bluetooth® technology.

The Bluetooth function enables work with both hands free while taking calls via DECT- or mobile phones. The ambient listening function lets the user hear surrounding noise and converse with colleagues. The headset provides effective noise attenuation when sound level is high.

- DSP (Digital Signal Processor)
- Level dependent function in stereo that lets you hear ambient sound: conversation, machine sounds and warning signals
- Supports Bluetooth A2DP profile for streaming high quality stereo sound
- Advanced VOX (Voice Operated Transmit)
- Available in Flex version

Peltor™ ComTac™ XPI Headsets

Clear and reliable communications are critical to success in most military operations. To be able to communicate while being protected from harmful noise levels is a vital necessity, both for exercises and actual combat situations.

In many military operations, noise levels are so high that they can cause immediate and permanent damage to the hearing if protection is not worn. At the same time, communication is of prime and vital importance. Orders and information must be heard and understood, both via radio and directly person to person.

- Thin, high-attenuating cups
- Tested to IP68 and military specifications
- Watertight microphones
- Level dependant function with new setting options:
- Plug mode- increases the volume when wearing the headset with earplugs in extremely noisy environments
- Balance Mode- adjusts the balance between left and right earphones
- Equalizer Mode- adjusts and cuts out high or low frequencies
- Release Time Mode- Adjusts the length of time before the Tactical function is reactivated
- High quality head band made from stainless steel and leather
- Automatic power off after two hours if no function is used
- No software loads or outside power required, complete self contained headset with power fail safe
- Voice guided menu

Workstyle Solutions

3M's Peltor™ Workstyle™ headsets effectively protect your hearing while allowing you to listen to FM-radio.

Peltor™ Worktunes™ Digital Headset

3M™ Peltor™ Worktunes™ Digital headset has an advanced radio as standard. The sound is reproduced in stereo with a bass that does the music justice. The short, flexible antenna provides excellent reception with no annoying interference, even in harsh conditions. The sound level of the radio or the external input never exceeds 82 dB(A).

- Hands-free Voice Assist feature guides you to your favorite stations and helps you program new ones
- Voice Assist tells you what radio station you are on without having to remove WorkTunes™ from your ears
- Voice Assist low-battery indicator
- Easy-to-use auto scanning to quickly find and save radio stations
- Bass Boost option
- Save up to 50 preset stations
- Designed for easy operation
- Automatic shut off helps conserve your batteries
- Recessed MP3 jack
- Output sound level limited to 82dB to protect your hearing

Peltor™ Worktunes™ Plus Headset

The 3M™ Peltor™ Worktunes™ Plus is a hearing protector with built in electronic functionality to improve safety and increase motivation for wearers in noisy conditions. It has a built in AM/FM radio and a level dependent function for ambient listening.

Warning signals, approaching vehicles and other dangers that may occur can still be heard thanks to the level dependent function. The external port enables connection to external sources, for example a mobile phone or an MP3-player.

- The level dependent function allows you to hear sounds, warning signals, machinery and conversations. Sudden impulse noise at harmful levels are immediately attenuated
- The AM/FM radio provides hearing protection with music while you work
- Easy-to-handle volume control knobs for radio and level dependent function
- A short, flexible antenna provides excellent reception with no annoying interference
- Switches automatically from stereo to mono for the best reception in the event of a weak signal
- AM/FM switch to choose your radio reception

3M/Peltor Communications Solutions

Warranty

3M warrants that all of its Peltor™ communications solutions and accessories will be free of defects in workmanship and materials under the terms of the limited warranty for the period of 24 months from date of purchase.

Conditions of Warranty

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be acceptable quality and the failure does not amount to a major failure. In the case of a warranty claim, a copy of the receipt with date of purchase, along with a description of the fault must be enclosed.

Repaired or replaced products shall, with respect to the fault or to the new product, be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of equivalent reconditioned parts.

To Obtain Warranty Service

Should your Peltor™ solution require service during the limited warranty period, contact 3M TechAssist Helpline on 1800 024 464 (AU) or 0800 346 357 (NZ).

Limited Warranty Exclusions

The limited warranty excludes failure resulting from:

- Improper use of equipment
- Repair, alteration or modification of the product by anyone other than a 3M Authorised Service Provider
- Accident, abuse, neglect, fire, water, lightning or other acts of nature
- Causes external to the product(s)
- Breakage or physical damage to the equipment
- Hygiene kits and batteries are not covered by the warranty.
- Other factors beyond the control of 3M.

Disclaimer of Warranty

Upon receipt and inspection, should 3M determine that your product is not covered by the stated warranty, you will be notified immediately and advised of fees and charges that may apply.

Notes

Hearing Protection Solutions Made Innovatively Easy

detection

Detecting and monitoring noise exposures in the workplace is the first step to ensure your workforce is protected. 3M's accurate, reliable, and flexible instrumentation coupled with powerful software is the innovative solution for your noise detection challenge.

protection

It is critical to select hearing protectors that your employees are motivated to wear. 3M has a broad selection of hearing protectors for a wide range of environments. Trouble fitting your earplugs? Need to communicate in noise? Dirty hands? Hot, humid conditions? These are just a few of the many challenges that 3M's innovative products can help solve for you.

validation

3M™ E-A-Rfit™ Validation System utilizes F-MIRE technology to measure and obtain an objective, quantitative level of employee hearing protection in just 10 seconds per ear. Workers receive their own personal attenuation rating (PAR) and learn how correctly fitting their earplugs increases their level of protection.

3M customers can also contact 3M TechAssist on
1800 024 464 (AU) 0800 364 357 (NZ)
to answer questions on product information, technical
advice and guidance with product selection.

⚠ WARNING

Hearing Protection Products*

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, User Instructions, or call the 3M Personal Safety Technical Service team. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

Choking Hazard—Keep away from infants and small children.
